

Abington Public Library

Inclement Weather Policy

The library may close (or delay opening) when weather conditions make travel dangerous. The deciding factor will be the safety of library patrons and staff.

The Abington Police and Department of Public Works will be called upon for advice concerning road conditions.

- If hazardous road conditions occur, the director (or senior staff member) will contact the Library Board Chairperson.
- If a weather related closing is necessary, the library's outgoing telephone message, website calendar, and social media will be updated, if possible, and the appropriate Town departments will be notified.
- In the event of an early emergency closing, all library users must leave the building as quickly as possible at the direction of the library staff.
